

Theatre production company

Art that changes states of mind

AELITA PRODUCTION is a theatre production company.

We create productions and festivals that change how contemporary theatre is perceived — from intimate mystery plays to large-scale festival projects across Russia's regions.

Our work is about finding bold directorial voices and creating the conditions for them to speak. We believe theatre should be a living conversation between artist and audience.

WHAT WE DO

- Producing productions
- Festival projects
- Touring
- Resident-artist development
- AELITA COMMUNITY
